About Me

I am a full-stack developer skilled in Python, Go, C# (.NET), JavaScript, and frameworks like Django, React, and Vue.js. I build scalable web applications, APIs, and dynamic frontends, with experience in CRM systems, HR portals, and educational platforms like Kiwi Read. Proficient in databases, cloud services (AWS, DigitalOcean), and Docker, I deliver reliable, high-performing, and user-friendly solutions in collaborative team environments.

Skills:

Programming Languages
- Python, Go, JavaScript, C# (.NET), HTML, CSS

Backend & Web Frameworks
- Python / Go / .NET: Django, .NET Web API, Express.js

Frontend Development
- React, Vue.js, jQuery, AJAX

Databases
- PostgreSQL, MySQL,MongoDB

Cloud & DevOps
- AWS (EC2, S3, RDS basics), DigitalOcean, Docker

API Design & Integration
- RESTful APIs with Django, Go, .NET; authentication,

Testing, Debugging & Performance
- Unit testing (Django, pytest), debugging, database and API optimization

Professional Experience

One Pasal

March 2025 - Present
Lead Backend Developer / Team Lead

Key Responsibilities:
- Led the backend team for a multivendor platform, overseeing development and technical strategy.
- Designed the database architecture and planned the overall project structure.
